

## PARTISAN HOUSE CLEANING GOING ON IN CONGRESS

Old Force of Democrats  
Make Way on House Pay-  
roll for Republicans.

## USUAL PARTY CHANGE

Plaza Housing Proposition  
Will Be Under Scrutiny  
Of Majority Party.

These are melancholy days for de-  
serving Democrats at the Capitol.  
The patronage committee of the Six-  
ty-sixth Congress is in the midst of  
the task of separating those who have  
held jobs for the past eight years  
from the payrolls and replacing them  
with those who have been in the  
When Representative Gillett as-  
sumes the Speakership of the next  
House, the doorkeepers, clerks, mess-  
engers, elevator attendants, mess-  
engers, postoffice attendants and pages  
will be employees appointed by the  
majority party, with the minority  
members holding a few subordinate  
places.

**Usual Housecleaning.**  
This is the housecleaning of the  
Capitol. When the Democrats assume  
control in Congress, in the par-  
ticular of places it is planned to  
give every Republican member  
the disposition of at least one \$1,000  
job. Chairmen of committees are  
not considered in the distribution,  
for they are each given one or more  
clerks to perform the work of the  
committee in addition to the regular  
allowance for clerk hire.

In some exceptional cases the em-  
ployees who held office under the  
Democratic control will be main-  
tained. This policy will prevail in  
the Appropriations Committee, since  
Chairman Good has already an-  
nounced that the experience of these  
clerks makes it inexpedient to make  
a change.

**About 600 Affected.**  
In all there will be about 600 men  
affected, including the Capitol police  
force. When the Democrats assume  
control eight years ago they wiped  
out hundreds of unnecessary jobs at a  
cost of more than \$200,000 annually.  
This included doorkeepers' posi-  
tions, where no doors existed, but  
where employees were always appoint-  
ed to watch them. Some deserving  
Republicans are hoping the old  
order of things will be restored, it is  
said.

In addition to changing the roster of  
employees at the Capitol the Republi-  
cans are planning to investigate a  
number of departments where they  
believe unnecessary employees with  
the aid of "deserving Democrats" have  
been hidden away.

Among other things to come under  
the management of the "hotels" for  
government workers" on the Union  
Station plaza.

It is charged that 60 persons, re-  
ceiving from \$40 to \$250 a year  
are employed in these hotels to house  
and otherwise care for 1,800 work-  
ers. One person is said to look after  
over three hundred workers. It is al-  
leged that Republican partisans call  
the Democrats are caring for a lot of  
"deserving" party men and women in  
the housing program.

There are fifteen dormitories on the  
Union Station plaza and they cost  
more than \$100,000.

Dr. Ferdinand King, New York Physician

advise their patients to take Nuxated Iron  
for their patients—says anemia—iron deficiency  
is the greatest cause to the health,  
strength, vitality and beauty of the modern Amer-  
ican Woman. Sounds warning against use of met-  
allic iron which may injure the teeth, corrode  
the stomach and in some cases thereby do more  
harm than good, advocate of only nuxated iron,  
taken three times per day after meals. It will  
increase the strength and endurance of weak,  
nervous, run-down folk in two weeks time in  
many instances. Dispensed by all good druggists.

## BILLION TIED UP IN U. S. RAILS

Hines Says Money Will Be  
Released When U. S.  
Roads Refinance.

Pittsburgh, Pa., March 27.—The  
Railroad Administration will have  
\$1,050,000,000 tied up in the national  
railways at the end of this calendar  
year, Director General Hines declar-  
ed in a speech before the Cham-  
ber of Commerce here today.

This money, Hines said, will be  
released as rapidly as the railroads  
can refinance themselves, at any  
event upon the termination of Fed-  
eral control.

Hines announced he will ask Con-  
gress for the appropriation of \$500,-  
000,000 to be added to the Railroad  
Administration revolving fund, now  
\$500,000,000.

"The more speedily this appropria-  
tion can be made," Hines said, "the  
more rapidly the railroads will be able  
to begin refinancing and to begin the  
gradual process of returning these  
large sums to the government."

Hines outlined the necessary ad-  
vances to the railroads as follows:  
When the roads are released from  
Federal control there will be tied up  
in working capital, \$340,000,000.  
Advances which will be necessary  
during the year 1919, pending opportu-  
nities to refinance, \$370,000,000.

The appropriation was needed  
and still is needed to enable the  
government temporarily to carry  
these expenditures, Hines said. He  
expressed the opinion that the  
money could be gradually refund-  
ed by the railroad companies as they  
are able to finance their re-  
quirements from other sources."

## HURLEY FAVORS SALE OF AMERICAN SHIPS TO PRIVATE OWNERS

CONTINUED FROM PAGE ONE.  
mortgage for the unpaid balance,  
charging interest at the customary  
commercial rate of 5 per cent.

One-fifth of the interest, the dif-  
ference between the government in-  
terest and commercial interest, to be  
paid into a merchant marine devel-  
opment fund.

The purchaser to insure with an  
American company his equity in the  
vessel, the government to insure the  
vessel against loss or damage.

No transfer of a vessel to foreign  
registry is to be permitted without  
express permission of the government.

Each purchaser who wishes to op-  
erate in the foreign trade to be  
obliged to incorporate under Federal  
charter, such charter to provide that  
no stock is to be issued in excess of  
the money value actually paid in on  
vessel property. No stock is to fall  
into alien hands.

One member of the board of direc-  
tors of each company to be named by  
the government, these directors to  
meet periodically to advise the Ship-  
ping Board.

The merchant marine development  
fund to be used to remove such finan-  
cial difficulties as may be encountered  
in the development of an adequate and  
well-balanced American merchant  
marine.

"In order that the American mer-  
chant marine will be operated with  
due regard for the interests of Ameri-  
can industry and commerce, it is  
necessary to exercise control over the  
maximum freight rates which may be  
charged in regular trade routes," said  
Mr. Hurley.

## 100 PER CENT PRO-LEAGUE VOTERS BOOST "YES" TOTAL

4,232 Herald Readers Favor Wilson Plan, 1,084  
Oppose; Republican Approves; North-  
west Washington Frowns on Idea.

A 100 per cent "pro-league of na-  
tions" last night boosted the total  
affirmative votes to 4,232, while the  
negative vote remained at 1,084. This  
raises the ratio to nearly four to one.  
One ballot favoring the league is  
signed "A Republican."

Another bears the legend "Live and  
Let Live," while a third declares:  
"We stepped into Europe to make the  
world safe for democracy; why not  
a league to keep it so?"

Several votes express faith in the  
President. Such sentiments as "Our  
President is for it. So am I," are  
common.

Nearly one-half the ballots have  
some message written underneath the  
names. One signed by "an army of-  
ficer" asks, "Is there to be no lasting  
results to the fight?"

A large majority of ballots returned  
from the theaters show favoritism for  
the league. From nearby cities there  
is a predominating sentiment for the  
league.

Much of the opposition comes from  
Northwest Washington, Northeast and  
Southeast are lining up rather solidly  
for the plan, while from the previous  
ballots Southeast and Northwest, ac-  
cording to the counters, present more  
or less opposition.

## WELFARE LEAGUE FOR SING SING ONCE AGAIN

When Warden Moyer Leaves In-  
mates Will Hold Election.

Ossining, N. Y., March 27.—Inmates  
of Sing Sing prison are jubilant over  
a message received today by prison  
attaches saying the Mutual Welfare  
League can again hold its semi-annual  
election, forbidden by Warden William  
Moyer in January, after he leaves  
office on April 15.

Attendants stated today that Thomas  
Mott Osborne, who installed the league  
in Sing Sing, and other reformers,  
have arranged matters at Albany so  
that many of the league's privileges,  
curtailed by Warden Moyer, will be  
restored.

The prisoners construe this news as  
an indication that Governor Smith is  
going to keep strictly his pre-elec-  
tion promise of a more liberal treat-  
ment of prisoners.

## War Made Man of Monk.

New York, March 27.—Police men  
smiled when Monk Eastman, ex-  
convict, gunman, gang leader and  
once legitimate quarry of every  
New York cop, flaunted his "heavy"  
artillery under their noses on Fifth  
avenue. Monk was marching with  
the victorious Twenty-seventh Divi-  
sion.

## USE HUN LINERS AS TROOP SHIPS

First of Dozen Vessels for  
Transports Turned Over  
To Americans.

Return of American troops from  
France was speeded yesterday with  
the commissioning of the first of  
twelve German liners loaned to the  
United States for transports.

Navy Department advisers said the  
German steamship Cleveland was  
commissioned yesterday at Stithard  
on the Thames. To move most rap-  
idly into the American transport  
service tomorrow—the Patricia and  
the Kaiserin Augusta Victoria. In  
addition, the liner Cap Finisterre  
has arrived at Stithard for delivery  
to American naval forces and four  
others, the Prince Frederick Wil-  
helm, Zeppelin, Pretoria and Graf  
Waldersee, have left Hamburg for  
Stithard.

After their first trip to the  
United States with returning troops,  
these German ships will be refitted  
at navy yards here to accommodate  
a maximum number of Yanks.

## Yank Tank to Climb Pike's Peak as Boost For New Victory Loan

Pike's Peak is going to have a new  
experience. A tank—the kind used by  
the Yanks in France—will be sent up  
the famous mountain early in April.  
Frank H. Wilson, director of war loan  
publicity, announced today. It is  
planned to use the climb as one of  
the features of opening the loan cam-  
paign in the West.

## Texas Offers Land For Aviation Field

The citizens of Dallas, Tex., have  
offered the Navy Department a square  
mile of territory for the purposes of  
a flying field to advance the navy's  
interest in aviation. The land is very  
near the site of the great government  
plant for the production of helium gas,  
which is to revolutionize the art of  
the dirigibles for the army and navy.  
The area offered to the navy will ad-  
mit of experimentation of the navy  
in heavier-than-air machines, dirig-  
ibles and balloons. The navy has taken  
the offer under consideration.

## Wants \$5,000 for Injury.

Everyday incident filed suit yester-  
day in the District Supreme Court  
for \$5,000 damages against George  
Lewis.

The plaintiff claims that on De-  
cember 9 last, while crossing the  
Union Station Plaza, she was run into  
by Mr. Lewis' automobile and seri-  
ously injured. Her clothing was badly  
torn and ripped, she stated, and  
it cost her \$25 to replenish her wardrobe  
after the accident. Attorney  
George M. Morris filed the suit.
